FINISH:

Dependent on intended use (ie: decoration, food contact, etc.)

OIL & WAX

This is the industry standard finish for food safe surfaces. It is ideal for use on cutting boards and / or food serving trays such as a charcuterie board or cheese spread. Upon request, wax can be omitted for use with hot dishes.

CLEAR-COAT

Clear-coat durable finish is a popular choice for decoration-only boards as it does not require oil maintenance. As a bonus, the fully-cured finish is food safe when used as a serving surface! Do not use as a cutting board as it will compromise the finish.

ADDITIONAL OPTIONS:

Great as accent strips for a pop of color. Limited stock available.
